

SHARE AND STORE SECURELY WITH BOX FROM O2

FROM JUST £3.50 PER MONTH

Box is for any business that needs a secure way to share documents, inside or outside the office and with people outside the business. In the modern workplace over a third of business people work in three or more office locations. Box is ideal in ensuring uninterrupted sharing and collaboration regardless of the distance between colleagues.

A white dashed arrow starts at the top left, loops around, and points downwards towards the 'SHARE' section.

SHARE

- Gives you the ability to collaborate with ease by editing documents in the cloud, Box also manages version control so you know which is the latest.
- Admin console allows you to share smartly by controlling your documents and who's using them, allowing you to see who's sharing what and when any changes are made.

STORE

- With storage options from 100GB to unlimited you will always have all the storage you need.
- Access your files whenever, wherever with easy access to all your documents via the Box app available to download onto any smartphone or tablet.

SECURE

- Do all this in the knowledge that Box is highly secure with internet banking level security meaning that your confidential information stays that way. All documents are password protected, have expiry dates and you can restrict download settings.

With many UK businesses such as Network Rail and local councils already using Box why not try it today to see the benefits for yourself. What's more all of this is available from only £3.50 per month!
